

Work Group Update

AHTS Checklist

Brian Turnbull on behalf of Duncan Cursiter

15th May 2008 – Aberdeen Airport Thistle Hotel

MSF AHTS Checklist

The AHV/PSV Vessel Health, Safety and Environmental Checklist work group consists of Duncan Cursiter, Dick Macklin, Kevin Fulton and Jim Gordon. The terms of reference were to provide a fit for purpose, MSF-endorsed document to replace the proliferation of audit/health-check documents in use. Revision 1 of the document was produced in November 2007. Revision 4 was produced in March 2008 and submitted to the MSF Steering Group for wider consultation. The health-check is appropriate for AHVs and PSVs and consists of six pages with ten sections. The intention is to have the document endorsed at the next MSF Steering Group meeting on 26th June 2008.
