# All Members Meeting

21<sup>st</sup> June 2007

## Objectives

- To air safety issues in a mixed forum of service users and providers
- To highlight areas of particular concern and reach consensus on action required to minimise risk of major accidents
- Take pre-emptive action on minor issues which have the potential to escalate
- To coordinate all marine industry workgroups and draw from industry expertise
- To represent marine concerns within Step Change in Safety
- To work together to share safety information and good practice across the whole industry

*Have you effectively implemented safety learnings?*

# All Members Meeting

21<sup>st</sup> June 2007

## Key Facts

- Originally formed in 1997 to address concerns by ship owners of overloading with customers' safety meetings
- Originally called 'North Sea Marine Affinity Group'

How can you help?

- The MSF needs your help to do an effective job
- We need safety information from you to spread the word so that:
  - others can look out for the possibilities of similar events
  - others can learn from your recommendations
  - lateral learning can take place
- We need sea staff, offshore installation personnel and management to attend All Members Meetings to share information
- We need membership to fund the forum
- We need willing volunteers to form and assist workgroups by adding expertise in particular fields
- We need to know your concerns about any aspect of marine safety
