Sling Length?

Not just Gas Racks!

Not just Gas Racks!

Issues

- Lengths of slings causing handling issues when try to hook on
- There is no length criteria within the standard
- Generally people just order slings
- Ordering of slings seems to be made without size of units being provided
- Understanding of the problem is not understood
- Consideration of handling is not always considered
- O & G guidelines does not issue  we will in the future

Questions

What is the size of the problem?

What needs to be done?
