All Members Meeting

29th November 2007

Objectives

- To air safety issues in a mixed forum of service users and providers
- To highlight areas of particular concern and reach consensus on action required to minimise risk of major accidents
- Take pre-emptive action on minor issues which have the potential to escalate
- To coordinate all marine industry workgroups and draw from industry expertise
- To represent marine concerns within Step Change in Safety
- To work together to share safety information and good practice across the whole industry

Have you effectively implemented safety learnings?

All Members Meeting

29th November 2007

Key Facts

How can you help?

The MSF needs your help to do an effective job:

- We need safety information from you to spread the word so that:
 - others can look out for the possibilities of similar events
 - others can learn from your recommendations
 - lateral learning can take place
- We need your safety statistics
- We need sea staff, offshore installation personnel and management to attend All Members Meetings to share information
- We need membership to fund the forum
- We need willing volunteers to form and assist workgroups by adding expertise in particular fields
- We need to know your concerns about any aspect of marine safety
